

Lite & Armrest

Lite is our simplest product for you that doesn't need more than the basic features. Lite prevents repetitive strain injury and other problems that may arise when working with a traditional mouse. Together with an armrest that relieves the shoulders and neck, you get a complete setup that both prevents pain and improves your efficiency.

Key features Lite

- » Slim ergonomic design
- » Control pad with click function
- » 4 buttons with scroll and auto-scroll functions
- » USB plug-and-play
- » 1500 dpi

Key features Armrest

- » Smart ergonomic design
- » Developed to relieve neck, shoulders, back and forearms
- » The shape creates a natural centered working position
- » The narrowest part, the "waist", is only 40 mm deep
- » Made of black artificial leather
- » Easy to keep clean with surface disinfectant
- » Z-shaped brackets that make it fit most desks. The desktop should not be thicker than 40 mm.
