

# Prime & Armrest

An exclusive and powerful ergonomic combination for those who want the best. Mousetrapper Prime is our most advanced mouse – with wireless Bluetooth, long battery life and 8 programmable buttons. Together with an armrest that relieves the shoulders and neck, you get a complete setup that both prevents pain and improves your efficiency.

## Key features Prime

- » Slim ergonomic design
- » Control pad with click and scroll functions
- » Option to work wirelessly with Bluetooth
- » 8 programmable buttons that can easily be customized using MT Keys at [www.mousetrapper.com/software](http://www.mousetrapper.com/software)
- » Wrist supports can be cleaned with surface disinfectants
- » Replaceable wrist supports
- » Height adjustment with folding non-slip surface
- » 4 months of battery life between charges
- » Rechargeable battery
- » 2000 dpi
- » Bluetooth 4.1

## Facts

- » Width: 480 mm
- » Height: 20 mm
- » Depth: 110 mm
- » Weight: 720 g

## Key features Armrest

- » Smart ergonomic design
- » Developed to relieve neck, shoulders, back and forearms
- » The shape creates a natural centered working position
- » The narrowest part, the “waist”, is only 40 mm deep
- » Made of black artificial leather
- » Easy to keep clean with surface disinfectant
- » Z-shaped brackets that make it fit most desks. The desktop should not be thicker than 40 mm.

## Facts

- » Width: 680 mm
- » Depth: 220 mm
- » Height: 25 mm
- » Waist: 40 mm
- » Weight: 1400 g
